Subject: Proposed RHS Amendment

Attachments: P11209.03 Amendment and response.doc

Confidential
Attorney-Client Privilege

Please find attached a proposed amendment for a RHS application. Please note that we will need to file divisional applications to seek claims 1-50. Only claims 51-61 are being examined.

Please review this amendment at your earliest convenience. The response must be filed by next week so please get back to me this week.

Note that I limited the "upper air sensor" to be different than the "lower air sensor". Please confirm that this is the case with the RHS.

I plan to be in Washington D.C. in October. I also plan to ask the Examiner to interview this case. Let me know if you happen to be coincidentally in the Washington area as you are certainly invited to attend (but are not necessary).
